

A detailed architectural cross-section of a door assembly. The door leaf is a solid red rectangle in the center. It is flanked by two vertical sections of wall or frame, each filled with vertical hatching. On each hatched section, there are two small, white, rectangular inset features. The door is held in place by a thick black frame at the top and bottom. At the top center, a small white rectangular element is visible, connected to a thin vertical line extending upwards. At the bottom center, a small horizontal assembly is shown, consisting of a central circular element with a horizontal line passing through it, flanked by two small rectangular blocks. The text 'Zolderruimte 1.6' is printed in black on the red door leaf.
